California State University, Los Angeles

Bachelor of Science, Business Administration: Management.

Los Angeles, CA

May 2021

Experience

United Parcel Service (UPS)

Los Angeles, CA

Supervisor, Feeder Dispatch

Nov. 2021 – Jul. 2023

- Created an Excel macro that streamlined a previously time-consuming report, resulting in an 83% decrease in processing time from 30 to under 5 minutes, increasing productivity and efficiency.
- Supervised fleet, collaborated with cross-functional teams, and oversaw dispatch planning to ensure timely delivery of products, improve customer satisfaction, and meet service, safety, and cost goals.
- Analyzed data (volume, missed trailers, delivery failures) to create plans maximizing dispatch results, monitored load movement for opportunities to reduce costs, and ensured adequate staffing levels to minimize overtime expenses.
- Conducted audits and reviews to ensure compliance with regulations, including hazardous material handling, safety reports, and trailer loading/unloading accuracy.
- Verified trailers were moved correctly in the yard on time, ensuring efficient operations and minimizing errors.

Barmetrix

Los Angeles, CA

Inventory Control Specialist

Sept. 2018 – Sept. 2019

- Utilized proprietary software (Barmetrix) to:
 - Gathered data on stock on hand, new purchases, sales, recipes, and costs.
 - Analyzed trends and patterns in inventory levels, identifying opportunities for improvement.
 - Provided actionable insights and recommendations to optimize inventory management.
 - Demonstrated ability to adapt and refine processes based on changing business requirements.

Skills

- Data Science: Python, R, SQL, Tableau, Power BI; Statistical Modeling, Machine Learning, Data Visualization
- Business Administration: Financial Management, Marketing Principles, Supply Chain Management, Organizational Behavior
- Logistics and Inventory Control: Warehouse Management Systems, Inventory Tracking Software, Logistics Optimization tools
